

Facilitator: Miranda Bånnsgård

Participants: Amanda Jonsson, Miranda Bånnsgård, Maja Nyberg, Alex Nordgren

Date: 7/4-2017

Meeting Agenda 6

1. Objectives

- Structure in our lives??
 - We have to figure out some structure so everyone can find something to do without put his/hers foot in someone else's code...

2. Reports from previous meeting

- We have finished the User case diagram
- We changed the domain model after the seminar
 - Alex:
 - Coded on the Map
 - Maja:
 - Worked on the sketches
 - Amanda:
 - Worked on the RAD
 - Miranda:
 - Finished the UCs
 - Finished the UCs diagram

3. Discussion items

- Create an "API"! In order to get some structure for the project and make it easier for everyone to find something to code!
 - Now we have a clearer view of what classes there are and how they can/may work together. Of course this can change later, but now we have something to work with!

4. Outcomes and assignments

- a. Maja:
 - i. Will start to work on a map of Gothenburg! A pretty one.
 - ii. Start coding LostKitten
- b. Amanda:
 - i. Continue coding Marker and its subclasses!
- c. Alex:
 - i. Continues to work on the class Map!
 - 1. Clean it up!
- d. Miranda:
 - i. Start coding Station (and Space)

5. Wrap up

- a. Next meeting:
 - i. 19/4-17 - 14.00-15.00
