Meeting Agenda

1. Objectives

- We cannot get our example code to work in IntelliJ
- We find it hard to get some structure in our UCs.

2. Reports from previous meeting

- We have tried to get some structure with our UCs
- We have gotten answers to some of our questions since last time from the supervisor.
- Git seems to work for everyone right now... To be continued...

3. Discussion items

- We need to start produce some code and get something running. Right now we can not even run "Hello World"...
- Begin from scratch!
 - Works now!
- Code:
 - Wait for lecture tomorrow and how to make the domain model complete.
- Need to finish all the UCs!
 - Then we can do the UC diagram as well.
- We now have a calendar! So we and work together as much as possible.

4. Outcomes and assignments (!!!)

- Everyone:
 - Finish UCs!
 - Finish GUI sketches!
 - Start working on domain model (after lecture tomorrow)!
 - Discuss how/where to start coding!

5. Wrap up

- Next meeting
